PROFESSIONAL SUMMARY

Frontend / Full-Stack Developer with hands-on experience building production web applications using Next.js, TypeScript, React, and PostgreSQL. Skilled in translating UI wireframes into responsive, high-performance interfaces, integrating RESTful APIs, and managing secure database operations with Supabase and Row-Level Security (RLS). Trilingual professional fluent in English, Burmese, and Japanese (JLPT N4), seeking a junior software engineering role in an international team.

TECHNICAL SKILLS

- Languages: TypeScript, JavaScript (ES6+), Python, SQL (PostgreSQL), HTML5, CSS3
- Frontend Frameworks & UI: Next.js, React.js, Tailwind CSS, Responsive Design, State Management
- Backend & Databases: Node.js, Express.js, FastAPI,Firebase,Supabase, PostgreSQL (RLS), RESTful APIs
- Developer Tools & Systems: Git, GitHub, Docker, Postman, Vercel, Stitch, Figma (UI Inspection & Handoff)

WORK EXPERIENCE

Junior Frontend Developer & UI Designer (ScaleUp Solutions) — **Feb 2025 – Present**

- Developed responsive, modern web interfaces using Next.js, TypeScript, and Tailwind CSS, ensuring consistent rendering across mobile and desktop devices.
- Collaborated on design system specifications using Stitch and Figma to accelerate frontend development workflows.
- Connected client-side interfaces to backend REST APIs and handled structured error states to optimize user workflows.

UI/UX Designer & Web Developer (AD Digital) - Part Time — **June 2024 – Feb 2025**

- *Designed and prototyped responsive web layouts and interactive landing pages using Stitch and modern CSS frameworks.*
- *Conducted wireframing and user journey mapping to simplify navigation for commercial clients.*
- *Collaborated directly with engineering leads to ensure accurate Figma-to-code implementation.*

FEATURED PROJECTS

Mingalar Express — Full-Stack Delivery Web Platform

Next.js 16, TypeScript, Supabase, PostgreSQL, PostGIS, Leaflet

- Built a hyper-local cash-on-delivery tracking platform featuring an offline-first rider progressive web application.
- Designed geospatial dispatch routing and bilingual interface states backed by a structured Supabase database.

Quickbook — Multi-Tenant Business & ERP System

Next.js 16, TypeScript, PostgreSQL (RLS), Supabase, Docker

- Engineered a multi-tenant business management and accounting web dashboard with strict tenant isolation enforced via PostgreSQL Row-Level Security (RLS).
- Implemented role-based access control (RBAC) across six user tiers with real-time multi-currency financial calculation modules.

EDUCATION & CERTIFICATIONS

- B.S. in Computer Science (Coursework completed) | Mandalay University
- The Complete Python Pro Bootcamp | Udemy
- Full-Stack Web Development Bootcamp
- Web Developing Basic Course | The Navigator

LANGUAGES

- English: Professional Working Proficiency
- Burmese: Native
- Japanese: Conversational / JLPT N4 Certified
- Thai: Basic
